Startup Company Bringing Solar Energy to Haiti

Haiti has the potential to become a renewable energy powerhouse. And it's taking steps to get there. The Haitian Parliament eliminated import tariffs and duties on solar equipment in September 2017. This is a stark contrast to the U.S., which in January 2018 imposed a 30

percent import tariff on Chinese solar panels.

The Guardian: Haiti Switches on to Solar Power as Sustainable

Mirebalais is just an hour's drive north-east of the Haitian capital, Port-au-Prince, but in terms of technological distance travelled, the town might as well be on another planet. On moonless nights, much of the capital is dark; its shacks and makeshift roadside stalls are lit only by flickering candles or small kerosene lamps. It could hardly be otherwise in a country where only about ...

Haiti

Solar energy offers interesting prospects in Haiti, by offering energy self-sufficiency to the most isolated cities, in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.
