## Overview

---

How much does solar PV cost in Ireland?

Let's take a broader look at Solar PV pricing in Ireland. In 2025, our research shows installing solar panels on an Irish home generally costs from €3,200 to €15,600, depending on system size and setup. Grants are already factored into these prices.

What happened to solar panels in Ireland in 2023?

In May 2023, the Irish government abolished the 13.5% VAT on the supply and install costs of solar panels, instantly cutting about €1,000 off the average installation cost. Prices remain much the same this year compared to last. The grant has come down over this period so this points to a modest reduction in costs.

Can solar panels save you money in Ireland?

With the cost of electricity, solar panels let you tap into a free, renewable source of energy that will drastically cut your bills. In Ireland, a solar panel system can save you up to €1,000 annually. The average Irish home can fulfill up to 70% of its electricity needs.

How much do solar panels cost in 2025?

The average price for a typical household is €6,800 – €7,800 for 12 to 14 solar panels, after taking the €1,800 SEAI grant into consideration. Thanks to advances in solar cell technology, improved manufacturing scale and domestic government policy – PV panels cost significantly less in 2025 than in previous years.

How many homes are going solar in Ireland?

Ireland is targeting 250,000 solar homes by 2030, and already over 80,000 households have gone solar. This growing momentum is fueled by: At Infinite Energy, we're more than just solar PV installers we're your full-service partner

for clean, affordable energy.

How much energy does a solar system use in Ireland?

Well, the average Irish household uses around 4,200 kWh of electricity per year. If you really want to get value out of your new solar system, you should aim to cover at least 75% of your energy consumption – meaning that average home would need 8–10 panels, most likely with a 4kW system or higher.
