# Solar sunbelt Fiji

## Overview

---

Where is solar Fiji located?

Lot 41-42 Pilling Road, Nasinu, Suva. Solar Fiji, supply and install the highest quality solar power systems in the South Pacific. Based in Nasinu, Suva, we specialize in Off Grid and Grid Connect Solar Power Systems and are official distributors of world leading brands such as Victron Energy, Canadian Solar, Narada Batteries and QCells.

Who is solar hub NZ & Fiji & Pacific?

Discover Solar Hub NZ, Fiji & Pacific – the largest solar sales organization dedicated to making solar energy more accessible for homes, businesses, and islands. We operate in New Zealand, Fiji & Pacific.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.

Can solar power be used in Fiji?

The climatic condition of Fiji lacks direct solar radiation and hence high-temperature applications are not viable for this region. Thermal solar devices could be built locally and their applications could save a substantial amount of foreign exchange used to generate power with conventional fuels.

Where are Fiji's New solar power projects located?

Three new solar power projects are initiated. These are located at Qeleloa, Viti Levu and Taveuni. The Quleloa 5 MW PV-grid connected system is being developed by a local private solar firm under the purchase agreement with the Government of Fiji.
