El Sol is excellent at customising solar energy solutions to fulfil demands. We provide on-grid solar panel installations, comprehensive site inspections, accurate design and optimisation of solar systems, committed maintenance and support services, and assistance in obtaining government subsidies and incentives for easy solar adoption.

AES: Powering the Islands of El

Salvador with Solar-Plus-Storage

AES' Meanguera del Golfo solar plant--the first of its kind in Latin America--relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island communities and support economic growth in the Gulf of Fonseca region of El Salvador.

Groupe Agence Française de Développement

The project involves the construction by the Spanish construction group Grupo TSK, via a turnkey contract, of a solar power plant, La Providencia, with a total capacity of 100 MWp (80 MWac), comprising two substations: a 75 MWp (60 MWac) power plant, Antares, and a 25 MWp (20 MWac) power plant, Spica, as well as the connection infrastructure (transmission line).

Automation and control

Our access control systems can integrate into your surveillance camera systems in a smart and reliable manner. Structured cabling Therefore, we work with Cat5e+, Cat6e+, shielded Cat6e+, Cat6A and optic fiber cabling systems; besides, we provide stable and robust wifi networks.

El Salvador's First State-Owned Solar Plant Nears Completion.

The Salvadoran Government, under President Nayib Bukele, is advancing the construction of Talnique Solar, the country's first state-owned

solar power plant. Anticipated to start operations by the end of 2023, it will supply renewable energy to roughly 25,000 households. The endeavor is part of the government's focus on renewable energy to spur innovation, ...

Proyecto solar genera conflicto socioambiental en zona rural de El Salvador

Machete en mano, el agricultor salvadoreño Damián Córdoba deshiera la maleza que cubre un tronco de lo que fue un frondoso árbol, para mostrar la deforestación ocurrida recientemente en la finca Santa Adelaida, donde una empresa pretende instalar un parque solar, en el oeste de El Salvador. Por: Edgardo Ayala La finca, de 115 hectáreas, se ...

Much installed capacity in El Salvador is comprised of renewables

A significant portion of installed capacity in El Salvador consists of solar. The inclusion of solar energy in the installed capacity in El Salvador has become the second most important for the country. This mode of power represents 28.4% of total renewable energy. Solar is only exceeded by hydroelectric energy, which stands at 38.1%.

AES El Salvador inaugurates rural solar energy project

El Salvador 100% electrified, a challenge for AES

El Salvador Bringing electricity to rural communities undoubtedly contributes to the reduction of poverty and inequalities. In El Salvador there are still some 60,000 families without electricity, approximately 5% of Salvadoran homes, most of them located in remote areas of the national territory.

MPC Energy opens 21 MWp of solar farms in El Salvador

CAESS, the local arm of US power producer AES Corp (NYSE:AES), procured the entire solar energy output under a 20-year USD-denominated power purchase agreement (PPA). Victor Atehortua, MPCES project manager, told La Prensa Grafica that the company plans to develop some 70 MW of projects to reach 100 MW in El Salvador in the next three years.

Construction begins on El Salvador's first state-owned solar park

El Salvador's Lempa River Hydroelectric Executive Commission (CEL) has started building a 17 MW solar park. It is the first to be owned, designed, planned and executed by the national authorities.
