World's Largest AHI Battery will be in a Fully-Functioning Microgrid

Princeton Power Systems announced today that they will be partnering with Aquion Energy, Inc. to construct the largest Aqueous Hybrid Ion (AHI(TM)) battery built to date. The companies will collaborate on a project to showcase the Princeton Power Systems DRI-10 in a fully functioning microgrid at Aquion's Systems Integration Laboratory (SIL).

Aquion Energy's Origins, Story, and Mission and Values

Aquion Energy is the manufacturer of proprietary Aqueous Hybrid Ion (AHI(TM)) batteries and battery systems, optimized for stationary and long duration daily cycling and energy storage applications. This includes off-grid and microgrids, energy management, and grid-scale energy storage applications.

[Aquion Energy](#)

Aquion Energy was a Bethlehem, Pennsylvania and Washington, D.C.-based company that manufactured sodium ion batteries (salt water batteries) and electricity storage systems.. The

company claimed to provide a low-cost way to store large amounts of energy (e.g. for an electricity grid) through thousands of battery cycles, and a non-toxic end product made from ...

Aquion Energy Raises \$30 Million for Scalable Energy Storage Solutions

Aquion Energy, Inc., a developer and manufacturer of batteries and energy storage systems, announced that it has closed a \$30 million round of venture financing. Foundation Capital led the round with participation from returning investor Kleiner Perkins Caufield & Byers as well as new investors Advanced Technology Ventures (ATV) and ...

What are the Highest-Paying Jobs in Energy in 2024?

According to the International Energy Agency (IEA), global energy demand is forecasted to grow by 15% within the next 10 years. In the meantime, we are engaged in an energy transition - a major energy shift from nonrenewable sources (gas, oil, etc.) to renewable, smart, and CO₂-free energies (wind, solar, etc.). Our energy transition will have a greater impact than the oil ...
