## Songgai energy storage power station

---

### China's Largest Grid-Forming Energy Storage Station ...

The station was built in two phases; the first phase, a 100 MW/200 MWh energy storage station, was constructed with a grid-following design and was fully operational in June 2023, with an average monthly dispatch of about 28 times, showing overall good operation.

### Chongqing: Energy storage power stations improve power supply ...

Chongqing Yongchuan Songgai Energy Storage Power Station was officially put into operation at full capacity in early August this year and entered the commercial operation stage. The energy storage power station is located in Gangqiao Park, Yongchuan District, Chongqing.

### Super big battery! Two independent energy storage power stations ...

On August 4, with the 60 energy storage units in the station being put into use one after another, the Chongqing Yongchuan Songgai Energy Storage Power Station invested and built by Three Gorges Water Conservancy was officially connected to the grid at full capacity and put into commercial operation.

## CSG Builds the First Megawatt Battery Energy Storage Station

It is the first indigenous station-type battery energy storage system with secondary fire extinguishing functions, automatic fire alarm and extinguishing system, achieving a new breakthrough for the development of energy storage technologies for our country.

## Three Gorges Water Conservancy to build two power stations in ...

The Yongchuan District Songji independent energy storage power station project uses lithium iron phosphate energy storage batteries with an installed capacity of 200MW/400MWh and a construction period of about 5 months

### [Yongchuan Songji power station](#)

Due to new restrictions announced in 2016 by the National Energy Administration and the National Development and Reform Commission, further capacity expansions at this location appear to be on hold or cancelled.
