## Current state of solar in South Africa

So, to calculate our yearly savings, we take the amount of energy calculated by the solar system and multiply it by what we pay for energy per kilowatt hour. Total energy generated by solar system per year: 4176 kWh; Cost of Electricity, averaged to : R 3.00; Total energy multiplied by cost of electricity:  $4176 \text{ kWh} \times \text{R } 3.00 = \text{R } 12\,528$  per year
