Innovation Drives the Transition to Renewable Energy in South Korea

In 2018, South Korea had the lowest share of energy from renewable sources in energy supply among all IEA countries. According to Ember Climate, in 2020, wind and solar accounted for just 3.8% of South Korea's electricity. This is a mere 2.8% jump from 2015. Data from the Korea Energy Economics Institute (KEEI) reveals that renewables account for 6.4% of the country's ...
