Overview

Who is Trojan energy?

Trojan Energy Trojan Energy, the on-street electric vehicle charging specialist, has secured a significant £26 million investment to facilitate its ambitious growth plans. The funding round comprises £8 million from growth capital investor, BGF alongside an £18 million follow-on investment by the Scottish National Investment Bank (the Bank).

What is Trojan energy EV charging?

Launched in 2016, Trojan Energy's patented charging technology provides convenient on-street electric vehicle (EV) charging, supporting the EV transition for nine million households in the UK without access to a driveway.

Is Trojan energy a 'clutter free' company?

Keith Barclay, Investor at BGF, said: "It's great to be supporting Trojan Energy's growth journey as they continue to roll out chargers and make the electric vehicle transition accessible for the millions of households without a driveway. The business has developed a high-quality product and the 'clutter free' element is a key differentiator.
