Spectra PowerBox 310

To realize enough computing power for AGV navigation with low heat generation, our Spectra PowerBox 310-i5 is equipped with the low-voltage Intel® Core(TM)i5-8365UE processor. Connectivity In an autonomous driving system, wireless communication (Wi-Fi, Bluetooth, 5G, GPS, etc.) is very important for higher-level coordination.

Ultra kompakte und lüfterlose Spectra PowerBox 110

The demands placed on embedded computers in industrial environments can usually be described by the three terms - robustness, compactness and computing power. The Spectra PowerBox 110 Mini-PC was developed precisely for these applications. This ultra-compact Mini-PC fits into a housing of only 150 x 52.3 x 105 mm.

Georgia

Georgia Spectrum operates 14 therapeutic community programs serving 2,766 male and female offenders at 12 state facilities across the state, including two integrated treatment programs for offenders with co-occurring mental health and substance abuse disorders.
