

## European Solar Energy Storage

# Sri Lanka sun shine solar

## Overview

---

Why should Sri Lanka adopt solar energy?

Adopting solar energy brings several key advantages for the country:  
Renewable and sustainable - Solar is a renewable energy source that does not produce greenhouse gas emissions. Expanding solar contributes to Sri Lanka's goals of increasing renewable energy to 70-80% of the energy mix by 2030.

How much solar energy does Sri Lanka get?

According to the Asian Development Bank (ADB), Sri Lanka receives 4-6 kWh per square meter of solar insolation daily with around 5-7 hours of sunshine. This tropical climate allows for solar photovoltaic systems to operate effectively year-round.

Who is the leading solar company in Sri Lanka?

Since 2016, we have merited EM 2 Grade CIDA (ICTAD) Certificate as a leading Solar Company in Sri Lanka. When considering solar power in Sri Lanka, Genso Power is the leading solar energy provider among solar companies in Sri Lanka. We serve sustainability via solar power.

Which solar panels are best for Sri Lanka?

Monocrystalline and polycrystalline silicon panels are well-suited for Sri Lanka's climate. Monocrystalline panels made from a single silicon crystal tend to be slightly more efficient in high temperatures. Polycrystalline panels with silicon fragments are cheaper but marginally less efficient.

What factors affect solar energy production in Sri Lanka?

The amount of solar energy produced depends on several factors: Latitude - Proximity to the equator means more direct sunlight per unit area. Sri Lanka's location close to the equator gives it an advantage. Cloud cover - More clouds mean less sunlight reaches the solar panels resulting in lower energy generation.

How does Sri Lanka reduce reliance on fossil fuels?

Reduces reliance on fossil fuel imports - Sri Lanka imports over 95% of its fossil fuels, costing \$3.5 billion annually. Increasing domestic solar generation reduces the need for expensive fuel imports. Improves energy access - Only 75% of Sri Lankans have grid connectivity.

## Macksons Solar

Macksons Solar is a leading provider of innovative and sustainable solar energy solutions in Sri Lanka. As a proud subsidiary of the esteemed Macksons Holdings, we draw upon a legacy of excellence and integrity that spans over five decades as we aim to become one of the best Solar companies in Sri Lanka.

## Sri Lanka launches tender for 165 MW of ground-mounted solar

Sri Lanka has launched a tender for 165 MW (AC) of ground-mounted solar, accepting applicants to develop solar plants up to 5 MW ins size, connected to one of 20 selected substations across the

## Sunways

Powering Sri Lanka with Sunshine! Introducing other successful installation of our 20kW solar system in Colombo, Sri Lanka. Powered by Sunways STT-20KTL inverter, this system consistently

## Estimation of global radiation for Sri Lanka

Fre're et al. have given a graphical method to determine  $a$  and  $b$  of the modified Angström formula  $H H_0 = a + b(S Z)$ . Starting from their data the relations  $a = -0.14 + 1.20(S Z) - 0.82(S Z)^2$ ,  $b = 1.32 - 2.89(S Z) + 2.24(S Z)^2$ , are obtained to determine  $a$  and  $b$  for meteorological stations in Sri Lanka with known values of the annual average  $(S Z)$  where  $S \dots$
