Off-Grid Solar

Understanding the maximum power demand of your site. When designing an off-grid solar system, it's vital to evaluate the maximum electrical loads within your property to determine the most suitable off-grid inverter for your requirements. We highly recommend the Selectronic SP Pro482 inverters, which boast a 7.5kWh rating. This translates to a constant draw of 7,500 ...

Why Now is the Perfect Time to

Go Solar in Suriname

This blog will equip you with the knowledge you need to make an informed choice in the changing energy landscape of Suriname. Why Choose Solar Power Now? Save Money on Electricity Bills: Solar panels generate clean, renewable energy, reducing your reliance on the grid and potentially leading to significant savings on your monthly electricity

Suriname Power Inverters and Solar Panels

Another benefit for the people of Suriname is that AIMS Power is a one-stop shop for power supplies, selling everything needed to complete your system, including deep-cycle batteries, cables, fuses, solar charge controllers (MPPT and PWM). All the AIMS Power inverters and products available for purchase in Suriname are listed below:

Suriname starts building hybrid solar microgrids to power 25 villages

PowerChina is building three hybrid solar microgrids in Suriname, combining solar panels, energy storage, and diesel backup to power 25 remote villages across the country.

Paramaribo, Suriname 16.5KWp Solar

In addition to the solar panels, the installation includes a solar water heater. This energy-efficient system ensures a constant supply of hot water, powered entirely by the sun. The solar water heater not only contributes to reducing energy bills but also supports a greener lifestyle by lowering the household's carbon footprint.

How solar power works

Enphase is the only micro inverter Velocity Solar chooses by choice for the Geelong and surrounding areas. Solar Panels. Solar panels produce energy from daylight, not just direct sunlight. This means they can still produce electricity on cloudy or overcast days. Solar energy can be used directly in your home to power lights and appliances or
