Power in Campervans

The all-in-one lithium power supply gives you the ability to supply 240 V and 12 V outputs simultaneously for your electrical appliances and with a recharge time of 0-80% from the vehicle's alternator in 48 minutes you'll never be without power. The LPS II contains a solar regulator, so it is easy to connect solar panels directly to the LPS.

Clayton Power A/S

At Clayton Power we create innovative mobile power solutions which help our customers to adapt to greener energy solutions. Through technology leadership and sparring with our customers, we find solutions which challenge the climate changes, achieve improved energy efficiency and reduce the need for fossil fuel.

Management

Compact power supply without idling in the vans of Aarsleff Rails . Aarsleff Rail has chosen to install a Clayton Power LPS power supply in their vans. The LPS is a smart and environmentally friendly alternative to traditional inverter/battery systems, as it does not require the vehicle to idle to maintain power supply.

LPS II 3000

Den kraftfulla och kompakta LPS:en (Lithium Power Supply) ger ström till dina 230 VAC- och 12 VDC-apparater utan att du behöver krångla med ytterligare utrustning. Konfigurera din LPS-lösning Ultrakompakt.
