

European Solar Energy Storage

The energy vault Estonia

Overview

Energy Vault is a global company specializing in and based, long-duration energy storage products. Energy Vault's primary product is a to store energy by stacking heavy blocks made of composite material into a structure, capturing in the elevation gain of the blocks. When demand for is high, these blocks are lowere.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution, Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

When did Energy Vault start trading on the New York Stock Exchange?

In February 2022, Energy Vault Holdings, Inc. began trading on the New York Stock Exchange following the business combination with Novus Capital Corporation II that raised approximately \$235 million in gross proceeds additive to \$107M and \$50M license fees from Atlas Renewable.
