Residential Solar , SolarBlu

We had the team from Solar Blue come out and install a 10kwt system with 33 panels on our house and have been using them for 12 months now. When we had them installed we thought if we could just break even with our bills that ...

Blu Solar Energy , Georgia , Read Reviews

Mr. Harrison and Blu Solar knowingly deceived me into purchasing their solar panels for \$30,000 plus the cost of 30 years of financing and now refuse to allow me to return the product and terminate the loan agreement. I requested the cancellation of my contract with Blu Solar in March 2021 and asked them to remove the panels from my roof.

TOGO: In Blitta, the largest solar park in West Africa is now

The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant becomes the largest utility-scale solar park in Togo, and indeed in the West African sub-region. The new facility, which supplies clean energy to Togo's national grid, increases the country's energy autonomy.

Why Are Solar Panels Blue? , Solar

Polycrystalline solar panels are the more common, blue colored solar panels that have been widely popular for over a decade in the solar market. Polycrystalline solar panels are manufactured through a process where silicon is melted and poured into a mold. This leads to a solar cell that is made up of several silicon fragments.
