Tokelau - the world's first solar power sufficient nation

Tokelau - the world's first solar power sufficient nation Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost 100% self-sufficient in less than 12 months.

About Us

The Land and the People of Tokelau: Cultivated food crops are generally limited to breadfruit (*Artocarpus altilis*), giant swamp .Tokelau has now established a solar voltaic grid system on each atoll commissioned since 2012. This system of electrification can realise a total island-by-island electricity supply (nearly 100%) with some

Page 1 of 9 Title: The Solar Nation of Tokelau Director: Ulli

...

Tokelau is the first nation on earth that has switched its power generation to 100% solar. We want to see how that has changed their lives.

01:10 TITLE 01:31 Google Earth Animation Our first destination is Atafu, the northernmost atoll. Its lagoon is surrounded by small islets, called motus, which offer very limited space to live.

Tokelau

Tokelau has a population of approximately 1,500 people; it has the fourth-smallest population of any sovereign state or dependency in the world. As of the 2016 census, around 45% of its residents had been born overseas, mostly in Samoa or New Zealand. [8] The populace has a life expectancy of 69, which is comparable to that of other Oceanian island nations.

Tokelau , Roblox Rise of Nations Wiki , Fandom

Tokelau is a Tier I nation in Oceania that shares maritime borders with American Samoa. It is also the weakest country in the game in the Rankings. Tokelau was first settled about 1000 years ago by the Polynesian people. It was first found by Europeans on the 24th of June 1765. In 1863, slave traders from Peru arrived and kidnapped all 253 able bodied men on the islands. During ...
