

## European Solar Energy Storage

# Trinity energy Honduras

## Overview

---

Honduras has a very large potential to develop programs. Large improvements could be made in the areas of air conditioning for both the residential and commercial sectors, where the implementation of measures in the area of demand management and the rational use of energy could prevent unplanned blackouts. Some progress has been made recently under the Generación Autónoma y Uso Racional de En.

How much energy does Honduras use?

The total primary energy offer in Honduras is around 4.62 Mtoe or 53,730.6 GWh. The main source of primary energy is petroleum (53%) followed by combustible renewable and waste (44%), and coal (3%). The residential energy consumption is around 47% of the national consumption, of which 86% are provided by biomass, primarily firewood.

Does Honduras need a 'energy Emergencia'?

Access to electricity in rural areas needs to be improved. In June 2007, the president of Honduras, Manuel Zelaya, declared an "energía emergencia". An Intervention Board (Junta Interventoria), headed by the Minister of Defence and the Minister of Finance, was temporarily put in charge of ENEE to address the crisis.

What is the least expensive solution to the energy crisis in Honduras?

(Productive uses). SHS are comparatively cheap but energy service is limited and business and service systems are critical and often have high transaction costs. The World Bank concludes that the least expensive solution to reach the goal of the Honduras Government of 400,000 new connections by 2015 would be the dissemination of SHS.

Does the Inter-American Development Bank support energy projects in Honduras?

Currently, the Inter-American Development Bank is contributing funds and assistance to the following projects in the energy sector in Honduras: An Energy Sector Support Loan supported through a US\$29 million credit

approved in September 2008. This project will finance priority investments in transmission and support a program for reducing losses.

When did Honduras become a 'energy Emergencia'?

In June 2007, the president of Honduras, Manuel Zelaya, declared an "energia emergencia". An Intervention Board ( Junta Interventoria ), headed by the Minister of Defence and the Minister of Finance, was temporarily put in charge of ENEE to address the crisis. The mandate of this board has recently been extended until October 2022
