EN 14470 - The New European

Standard Explained

EN 14470-1 governs the storage of Highly Flammable Liquids while 14470-2 governs the storage of Flammable Gases. The cabinet must then be classified as Type 15, 30, 60 or 90. This is the time measured before the temperature rises more than 180 K at any measuring location.

Storage Cabinets According to BS EN 14470; Fire-protected ...

EN 14470. BS EN 14470 consists of two parts. Part 1 refers to 'safety storage cabinets for flammable liquids' and part 2 refers to 'safety storage cabinets for pressurised gas cylinders'. The standard was implemented in the course of European harmonisation, aiming to standardise the various safety-regulations in the different countries.
