Eco Transformers

It is now also to be applied to medium and large power transformers. In 2008 it was estimated that transformer losses amounted to 93.4TWh per year. In contrast, by 2025 the savings in losses has been estimated at 16.2TWh per year by using Ecodesign transformers.

About the company

Winder Company works in Ukraine for 10 years. Thanks to our wind power generators and solar panels more than 180 private houses and enterprises in Ukraine can not be afraid of

electrical power outages. Our main business has always been the power supply systems based on renewable energy sources. We are not an online store, which "sells everything".
