# Un boxes for lithium batteries Türkiye

## Overview

---

What is a lithium battery packaging?

This packaging is just one of our growing range of lithium battery packagings, tested and approved for shipping lithium ion or metal batteries and suitable for all modes of transport. Packaging is supplied without labels. These can be ordered separately here. This specific packaging enables shippers to transport a total packaging weight of up to 13kg.

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.

Can IonPak transport lithium-ion batteries safely?

The ORBIS IonPak is suitable to transport lithium-ion batteries safely. The UN approved packaging is certified for solid dangerous goods in a variety of different industries. With a robust outer packaging, customised interior packaging and dust cover, our lithium battery shipping boxes optimise product flow in industrial supply chains.

What is a UN approved box for dangerous goods?

ORBIS Europe offers UN approved boxes for solid dangerous goods (e.g. UN3480 – Lithium-Ion Batteries) in different footprints. The certifications UN4H2 and UN50H apply for recycled and primary materials. “How to Transport Dangerous Goods – Safe and Sustainable Battery Packaging”. Lithium-ion batteries are one of the most used battery types today.

How does the lithium ion battery packaging work?

In accordance with the latest dangerous goods guidelines, the shock

absorbing interior packaging is adapted to your product. The lithium ion battery packaging utilises standard footprints designed to interface with customers' existing supply chains.

Do you need a shipping box for lithium batteries?

UN certified containers for transporting and storing lithium batteries are needed to comply with the regulations. ORBIS' lithium battery shipping boxes fully hold and protect the batteries from damage or shocks of any kind. That includes isolating loose cables and poles.
