Greece Green Energy

Electrification will contribute to the increasing demand for Energy in order from 56TWh which is the current demand, to reach 130TWh by 2050. For Energy Storage Greece has set a target of 6,2GW by 2030 and 17GW by 2050. Hive Energy has developed three projects in Greece. A 267MW Solar project, which was brought to RTB stage in 2023.

Vanuatu: Energy Country Profile

Vanuatu: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

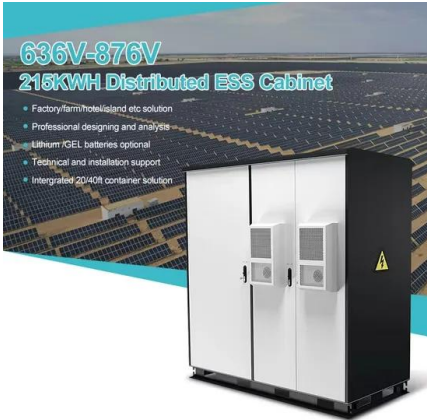

UK Green Energy

Hive Energy's journey when Giles Redpath founded the company in 2010 with the aim to support the UK's green energy transition. Our UK team is based across multiple locations around England; our Romsey HQ, London office, and Liverpool office. Thanks to the success of our solar projects, we have been able to carry our strategy forward to new

Hive Energy acquires four solar projects in Poland

Hive Energy acquires four solar projects from Poland's T& T Proenergy. The four sites will have a combined capacity of 272MW and are part of a wider agreement between the two companies to develop 700MW of solar capacity.
