### **A New Life for Old EV Batteries: Toyota and JERA Start Sweep Energy Storage**

In a world first, the two companies launched a demonstration of an energy storage system that deploys a wide range of old EV batteries which can connect to the grid. This development holds potential to extend the life of batteries, and as a result can help to partly insulate Japan from disruptions in international supply chains.

### **Toyota Plans To Use Old EV Batteries To Power The ...**

Together with energy supplier Jera, Toyota has created the world's first large-volume energy storage system. The Sweep Energy Storage System is in operation and cleverly uses old batteries from

### [Energy Central News](#)

Toyota City, Japan, October 27, 2022-JERA Co., Inc. (JERA) and Toyota Motor Corporation (Toyota) announce the construction and launch of the world's first (as of writing, according to Toyota's investigations) large-capacity Sweep Energy Storage System. The system was built using batteries reclaimed from electrified vehicles (HEV, PHEV, BEV, FCEV) and is connected ...

## Toyota Revs Up Efforts for Battery 3R to Achieve Circular Economy

Large-capacity sweep energy storage system with batteries for BEVs. JERA Co., Inc. and Toyota constructed a large-capacity sweep energy storage system using the drive, or traction, batteries of used electrified vehicles (HEVs, PHEVs, BEVs, and FCEVs). The constructed system enables a second use of vehicle batteries with large differences in

## JERA and Toyota deploy large capacity Sweep Energy Storage System ...

The installed base of fleet management systems in the Americas to reach 43 million units by 2028; TELO unveils new electric mini-truck Lectrix EV plans to raise \$100 million; Public key infrastructure to see moderate growth in EMEA region; Hyundai Motor join hands with IITs on EV ecosystem

## Toyota stellt stationären Energiespeicher für 100.000 kWh vor

Toyota stellt zusammen mit dem japanischen Energieversorger Jera einen stationären Energiespeicher für das japanische Stromnetz vor. Das sogenannte Sweep Energy Storage System nutzt die Altbatterien elektrifizierter Toyota-Modelle - also vor allem Akkus von Hybridautos, daneben aber auch von Plug-in-Hybridfahrzeugen, Brennstoffzellen-Modellen ...

## Toyota showcases technology developments towards a ...

Sweep energy storage system. Creating a carbon-neutral society is not just about solving energy issues, it also requires the building of a circular economy. Toyota has long placed an emphasis on this in its vehicle manufacturing, producing designs that minimise waste and reuse and recycle raw materials. With the rapid popularisation of

## Construction and Launch of a Large-capacity Sweep Energy Storage System

In response, JERA and Toyota began discussions in 2018 to establish battery reuse technologies, which eventually led to this large-capacity, grid-connected Sweep Energy Storage System. Toyota's new storage system is equipped with a function called sweep, which allows the use of reclaimed vehicle batteries, which have significant differences

## Vanuatu - Stellae Energy

Energy Storage Systems; Hybrid Microgrids; Standalone Power Systems (SPS) Vanuatu is a Western Tropical Pacific archipelago of 83#

islands (60# inhabited) across ~1300km, located ~1800km ENE of Australia. Population is ~327,000. Port ...

### **Toyota: Construction and Launch of a Large-capacity Sweep Energy**

Toyota's new storage system is equipped with a function called sweep, which allows the use of reclaimed vehicle batteries, which have significant differences in performance and capacity, to their full capacity regardless of their level of deterioration. The sweep function, developed by Toyota Central R& D Labs, Inc., is a device that can freely control energy ...

### **JERA, Toyota launch Sweep Energy Storage System from reused ...**

JERA and Toyota began discussions in 2018 to establish battery reuse technologies, which eventually led to this capacity, grid-connected Sweep Energy Storage System.

### **Toyota: Construction and launch of a large-capacity Sweep Energy**

In response, JERA and Toyota began discussions in 2018 to establish battery reuse technologies,

which eventually led to this large-capacity, grid-connected Sweep Energy Storage System. Toyota's
