My Zappi

The skill is called My Zappi and you can find it in the Alexa skill store. I copied the serial number of my Zappi from my Myenergi Product screen and pasted it to the Amazon screen followed by the API Key. The Amazon screen would not accept what I had just copied over, so I generated another API key and tried again.

zappi support

In case of a PEN fault, zappi becomes completely isolated from the input supply. That means that all conductors present at the output socket or cable - including protective earth and control signals - will be safe removing any risk of potential electric shock. zappi meets the requirements of BS 7671:2018, 722.411.4.1 (v).

Zappi v1 firmware update

A couple of days ago I updated my Zappi v1 but I encounter several problems. This is the first picture I'd like to start with. Maybe this is not related to the update, but this is the 3th time since the update this is on the display and of course, Zappi and Harvi are red on the Hub.

zappi EV Charger , 7kW & 22kW Home charger , myenergi

Charge your electric car at home with zappi. Thanks to the myenergi zappi, charging your electric car at home is easier, cheaper and more environmentally friendly than ever before.

Choose your perfect zappi today. Offering future-proof, intelligent car charging at your fingertips, zappi is the UK's #1 best-selling solar compatible EV charger.

Zappi v2 and Intelligent Octopus Go

On the app the manual and scheduled tabs just control what is seen in the app, they do not control the zappi. With Zappi integration the Zappi needs to be in Eco+ at all times with no schedules set anywhere other than those Octopus set and display in the Octopus app. If you switch to Eco or Fast, Octopus will switch the Zappi back to Eco+.

MyEnergi Zappi Review: Take control of car charging

MyEnergi's Zappi charging point is a smart EV charger for homes and businesses. It's available in four versions, each of which comes in white or black. Tethered Zappis have a type-two charging

Zappi charging rate

This remains the same if we charge in the middle of the day. We put our neighbours EV onto the zappi and the charging rate is still 3.6 kWh. The car is capable of being able to charge at 7.7 kW. We have searched for information but can't find out how to see if the zappi is set to charge at 7.7 kilowatt hours or lower? any advice gratefully

HELP! Zappi not recognising PIN

So my untethered Zappi won't recognise my PIN, the cable isn't locked, the symbol is purple.

ZAPPI-2H07UB-G - Zappi Eco-Smart EV Charge Point 7kW Untethered Black . The Zappi Eco-Smart EV Charge Point 7kW (Untethered, Black) is a reliable and energy-efficient electric ...

myenergi-MyEnergi API

Example say the Zappi delivered 100w-sec for 6-hours then there would be 21600 records (6x3600) and one field will be Zappi power, so add them all up 100watt-sec x 21600=2160000/3600/1000 kWh = 0.6kWh
 That's just an example for the principle.

Zappi, Eddi and Powerwall priorities

Set device priority so that Zappi is #1 and Eddi is #2. Your myenergi system should then behave as you wish. Note that the Eddi may consume the available surplus before there is enough for the Zappi. The Zappi needs a minimum of 1.4kW for single phase and 4.2kW for three phase.

[extending charger cable for Zappi](#)

Myenergi do allow customers to purchase the optional 8M lead that the V1 came with, if you do wish to do that please speak with our sales team. If you have a V2 Zappi the only way you can get a longer cable and keep the warranty is to have a untethered unit and then you can have as long as you want for a cable.

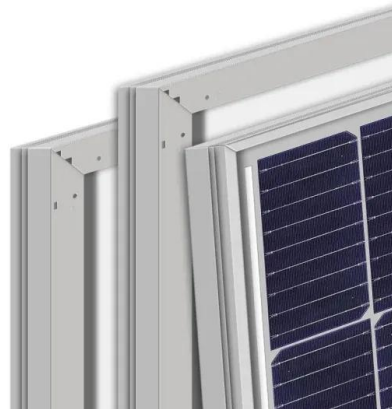

[Operation & Installation Manual](#)

A grid current sensor (supplied) simply clips around the incoming supply cable and is used to monitor excess power. When using the special ECO charge modes, zappi will automatically adjust the charge rate in response to available

myenergi to debut two new devices at Intersolar Europe
