February 2025 Item 9 WSIP funding options

The Water Storage Investment Program, called "WSIP," funds the public benefits of water storage projects funded by Proposition 1, passed by voters in 2014, and Proposition 4, passed by voters in 2024.

Water Storage Investment Program

Who is the California Water Commission? Nine-member Governor-appointed Commission Broad experience in water, environment, agriculture, and business Commission activities are conducted in public, which allows for broad stakeholder involvement and transparency

Client Alert: Proposition 1 Funding for New Water Storage Projects

Chapter 8 of Proposition 1 requires the Commission to adopt regulations for the investment of funds in publicly beneficial water storage projects. The adopted regulations describe the application process to obtain Proposition 1 funding for qualifying water storage projects.

Water Storage Investment Program

Commission makes a finding that the project will advance the long-term objectives of restoring ecological health and improving water management for beneficial uses of the Delta

Water Storage Investment Program , California State Water ...

This page provides information on WSIP projects that have indicated a water right action is needed and for projects that have already filed for water right actions with the State Water Board. For more information on WSIP and WSIP projects, please visit the California Water Commission.

Proposition 1 Water Storage Investment Program

Proposition 1 of 2014 dedicated \$2.7 billion for investments in water storage projects. The California Water Commission is administering the Water Storage Investment Program (WSIP) to fund the public benefits associated with these projects.

[Programs and Topics](#)

The California Water Commission is administering the Water Storage Investment Program (WSIP) to fund the public benefits associated with these projects. Information and documents related to the WSIP can be found on the WSIP page.

WSIP FAQs February 2025

A: There are six projects in the Water Storage Investment Program (WSIP), two surface storage projects and four groundwater projects. When completed, these projects would provide 2.65 million acre-feet of gross storage capacity.

ENERGY STORAGE SYSTEM

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW 115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled
