WEC Energy to build 310MW Paris project in Wisconsin

WEC Energy has unveiled its plans for a new 310MW solar and battery storage project, dubbed Paris Solar-Battery Park, in Kenosha County, Wisconsin. The facility will feature 200MW solar generation, which is adequate to power nearly 60,000 households, and 110MW battery storage capacity.

Wisconsin's first large-scale energy storage project is up and ...

Wisconsin's first large-scale energy storage project, the Paris Solar-Battery Park in Kenosha County, is now providing power to the grid. It's comprised of around 12,000 lithium-ion batteries collectively capable of powering more than 130,000 homes for up to four hours, according to We Energies.

TAX FREE

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW 115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

How Paris's 200MWh Battery Project is Solving the City's Energy Storage

Paris is taking vehicle-to-grid (V2G) tech to new heights. The 15,000 municipal EVs now function as a distributed storage network, adding 75MWh of flexible capacity during emergencies.

Paris project in Wisconsin

WEC Energy has unveiled its plans for a new 310MW solar and battery storage project, dubbed Paris Solar-Battery Park, in Kenosha County, Wisconsin. The facility will feature 200MW solar generation, which is adequate ...

Wisconsin Utility Investors

The 110-megawatt battery portion of the Paris Solar-Battery Park came online in June 2025. The 200-MW solar portion of the project went into service in December 2024. The storage facility is made up of batteries capable of powering more than 130,000 homes for four hours.

Paris Solar Farm Now Exporting Energy Even at Night

The storage facility is made up of batteries capable of powering more than 130,000 homes for four hours, according to a news release. On sunny days, the batteries store excess power and release it at night or in the early morning when the sun is ...

We Energies and Consortium Acquires a 200/110 MW ...

The project is located on about 1,500 acres in the Town of Paris in Kenosha County comprises about 750,000 solar panels. WEC Energy Group utilities We Energies and Wisconsin Public Service will own 90% of the project.

Wisconsin's first large scale energy storage project now serving

The 110-megawatt (MW) battery portion of the Paris Solar-Battery Park went online this month. The 200-MW solar portion of the project went into service in December.

We Energies and Consortium Acquires a 200/110 MW

The project is located on about 1,500 acres in the Town of Paris in Kenosha County comprises about 750,000 solar panels. WEC Energy Group utilities We Energies and Wisconsin Public Service will own 90% of the project.

Wisconsin utilities bring online state's first large-scale ...

The first large-scale battery energy storage system (BESS) in the US state of Wisconsin, the 110MW Paris Solar-Battery Park, has come online. The BESS is paired with 200MW of solar, which went into service in December ...

Wisconsin utilities bring online state's first large-scale BESS

The first large-scale battery energy storage system (BESS) in the US state of Wisconsin, the 110MW Paris Solar-Battery Park, has come online. The BESS is paired with 200MW of solar, which went into service in December 2024.

GRADE A BATTERY

LiFePO4 battery will not burn when overcharged, over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

Wisconsin Launches First Large-Scale Battery Energy Storage ...

The first large-scale battery energy storage system (BESS) in Wisconsin, a 110MW facility known as the Paris Solar-Battery Park, is now operational. This system is paired with 200MW of solar power that commenced service in December 2024.

State's First Large-Scale Battery Storage Project Now Serving ...

Wisconsin's first large-scale energy storage project--the Paris Solar-Battery Park in Kenosha County--is now serving Madison Gas and Electric (MGE) customers.
