China new energy storage capacity tops 100 GW, surpasses hydro

China's new energy storage market reached a milestone in the first half of 2025, according to a new report by CNESA, released earlier this week at the Western Energy Storage Forum in

CNESA Major Events in 2025 -- China Energy Storage Alliance

Event name: 2025 5th International Conference on Energy Storage Safety Technology When: October, 2025 Where: Tianjin, China Scale: 1,000 professional visits

CNESA Major Release on the 10th Western China Energy Storage Forum

Compared with the end of the "13th Five-Year Plan," significant changes have occurred in the structure of storage technology routes. The share of pumped storage has fallen below 40% for the first time, while new energy storage represented by lithium-ion batteries has achieved leapfrog growth.

Breaking Through into the Post-Mandatory Energy Storage Era!

After ten years of deep cultivation, the "Western China Energy Storage Forum" has grown into an important platform promoting coordinated development of new energy and energy storage in western China.

CNESA Events -- China Energy Storage Alliance

Since its founding nine years ago, the Western China Energy Storage Forum has played an important role in promoting the healthy development of energy storage and the innovation of market mechanisms in western regions with a high proportion of renewable energy.

2025 Energy Storage Western Forum: Where Innovation Meets ...

a room buzzing with engineers in Patagonia vests, policymakers clutching reusable coffee cups, and startup founders pitching "the next big thing" in energy storage. That's the vibe of the 2025 Energy Storage Western Forum.

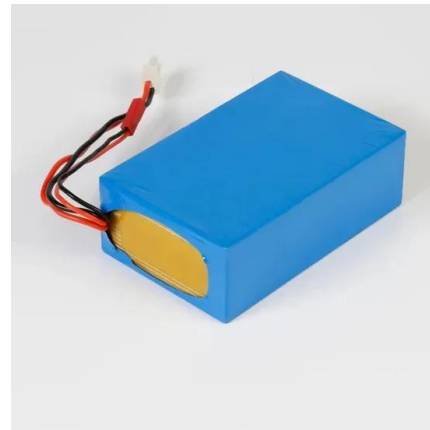

[Energy Storage Forum](#)

The purpose of the ESF is to discuss issues associated with the integration of energy storage devices, both stand-alone and coupled with other generating facilities, and to share lessons learned and best practices.

Aug. 19-21 , 10th Western China Energy Storage Forum

Since its founding nine years ago, the Western China Energy Storage Forum has played an important role in promoting the healthy development of energy storage and the innovation of market mechanisms in western regions with a high proportion of renewable energy.

CNESA: China's new energy storage fleet surpasses 100 GW, ...

China's new energy storage market reached a milestone in the first half of 2025, according to a report released by the China Energy Storage Alliance (CNESA) at the Western Energy Storage Forum in Hohhot, Inner Mongolia, earlier this week.

China's industrial and commercial energy storage is poised ...

As a speaker you will have access to the most followed group on energy storage in the World, named after our conference: Energy Storage

World Forum with more than 10,000 members
(growing daily).
