Overview

In New London County, the price of a 5 kW solar installation is typically \$13,335, after you subtract 30% federal tax credit. A higher capacity system may be needed to adequately cover your energy needs.

In New London County, the price of a 5 kW solar installation is typically \$13,335, after you subtract 30% federal tax credit. A higher capacity system may be needed to adequately cover your energy needs.

If you're considering installing solar panels in New London, it's important to understand how they work and what benefits they can provide. Solar panels harness the power of the sun by converting sunlight into electricity through photovoltaic cells.

Unlike traditional fossil fuels, solar power is a clean, renewable energy source that does not produce harmful greenhouse gas emissions. By harnessing the sun's energy, New London County can significantly reduce its carbon footprint and contribute to a greener, more sustainable future.
