# Which solar energy companies are scams in illinois

**12.8V 100Ah**

## Overview

---

Questions remain as to who is monitoring these solar companies at the state level. With more companies popping up and salespeople showing up on doorsteps, who is making sure they're.

Questions remain as to who is monitoring these solar companies at the state level. With more companies popping up and salespeople showing up on doorsteps, who is making sure they're.

The family is out more than \$100,000 in what they call a solar scam, and the company they dealt with was on a list provided by the State of Illinois as part of its solar energy program. Questions remain as to who is monitoring these solar companies at the state level. With more companies popping up.

Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are still many honest and reliable solar panel companies on the market, it can be hard to differentiate the good guys from the rest. Here are red flags to look out for when.

Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. While there are some government-funded solar.

The Citizens Utility Board (CUB) has issued a warning about door-to-door salespeople selling fraudulent solar energy products. It's essential to be cautious and vigilant when approached by solicitors claiming to offer solar energy solutions. According to Scott Allen, the energy policy specialist.

A consumer advocate says solar energy companies are having no issue getting steady business, meaning the chances of a legitimate representative showing up at your door are slim. Representatives from solar energy companies have been spotted making door-to-door sales in the Bloomington-

Normal area. A.

But here's the good news: solar isn't a scam especially when it's done correctly. And in Illinois, when you know what to look for, it can actually be one of the smartest moves a homeowner can make. Let's break it all down with just the facts. Why Do People Think Solar Is a Scam?

There are a lot of. Is going solar a scam?

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll cost to get and install solar panels. Here's how to steer clear of the scams: Do some research.

Does Illinois have a solar energy program?

The program has successfully processed over 45,000 new project applications since 2022, and solar energy has saved Illinoisans millions of dollars since the launch of Illinois Shines in 2019." Tara Molina is a general assignment reporter for CBS2 Chicago. How is Illinois protecting consumers from solar energy scammers?

.

Does Illinois have a solar incentive program?

The Illinois Power Agency uses Solar Renewable Energy Credits (SRECs) to incentivize consumers to switch to solar through its program called "Illinois Shines." The program offers a chunk of money back to those who install solar panels using an Illinois Shines-approved vendor. It can't be called a rebate, but it certainly functions like one.

How do I know if a solar contract is a scam?

Pay attention to warranties, cancellation policies, payment schedules, and try to spot any hidden fees. Honest businesses will give you time to go over the terms of the contract, understand the agreement, and let you sign it in writing. To learn more, visit [ftc.gov/solar](https://www.ftc.gov/solar). And if you spot a scam, tell the FTC.

Who oversees solar in Illinois?

That was one of the questions CBS 2 asked the agency overseeing solar in

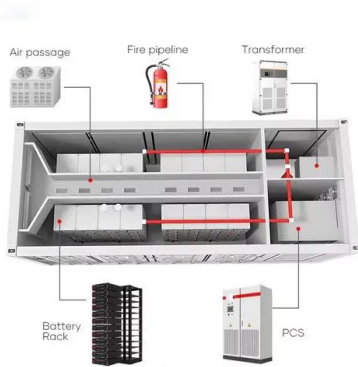

Illinois—the Illinois Power Agency. The Illinois Power Agency would not sit down with CBS 2 for an interview.

Is going solar free?

While there are some government-funded solar programs for households that qualify, “going solar” isn’t free. Honest businesses will tell you exactly how much it’ll cost to get and install solar panels. Here’s how to steer clear of the scams.
