

European Solar Energy Storage

Wholesale price of container pv kit in India

Overview

What is a containerized solar PV system?

Powtech's Containerized Solar PV Solution utilizes innovative hybrid technology housed within a standard 20-ft marine container, delivering up to 10,000 kWh of energy annually. The system integrates solar panels positioned atop the container, boasting a power capacity range of 4 to 8 kWp, complemented by a reliable battery backup system.

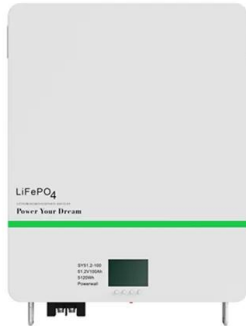

What is powtech's containerized solar PV solution?

These prices and products are valid for India only. For export quality products and pricing, please email us at info@powtech.in. Powtech's Containerized Solar PV Solution utilizes innovative hybrid technology housed within a standard 20-ft marine container, delivering up to 10,000 kWh of energy annually.

Does the standard solar kit include module mounting structure or GI strip?

The standard solar kit does not include module mounting structure or GI strip for earthing but we can make them available based on special request. If you need GI strip for earthing, please mention the request and include length in "Other requests".
