15.3GWh! Tesla Wins Big Energy Storage Deal

On July 18, Tesla announced the signing of a contract with Intersect Power to provide 15.3GWh of Megapacks (Tesla's battery energy storage systems) for Intersect Power's solar + energy storage project portfolio. This agreement will make Intersect Power one of the largest Megapack buyers and operators worldwide, with plans to deploy nearly 10GWh

Engie goes to CEC for BESS approval after local application denied

Image: Intersect Power. After failing to obtain local approval for the construction of a 250MW/1,000MWh standalone battery energy storage system (BESS) in the Californian city of San Juan Capistrano, Engie is pursuing state approval via the California Energy Commission (CEC) as permitted under Assembly Bill (AB) 205.

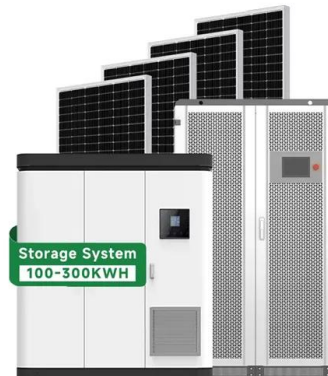

Intersect Power lands USD 837m in project funds for BESS in Texas

US clean energy company Intersect Power LLC has secured USD 837 million (EUR 765.5m) of financing commitments for the construction and operation of three standalone Battery Energy Storage Systems (BESS) in Texas totalling close

...

Intersect Power lands USD 837m in project funds for ...

US clean energy company Intersect Power LLC has secured USD 837 million (EUR 765.5m) of financing commitments for the construction and operation of three standalone Battery Energy Storage Systems (BESS) in ...

Energy Transition: Intersect Power Secures \$837 Million to Build ...

The three BESS systems - Lumina I, Lumina II and Radian - each will provide a capacity of 320 MWh of battery storage with a two-hour duration. Sheldon Kimber, Intersect Power's founder and CEO, said the systems "should allow us to provide more consistent financial performance from a diversified fleet of renewable generation and storage."

Google, Intersect Power to develop co-located energy parks with ...

Intersect Power owns 2.2 GW of operating solar and 2.4 GWh of battery storage in operation or construction, according to the Houston-based renewable energy developer.

Tesla Energy Secures Multi-Billion Dollar Contract with Intersect ...

Tesla Energy (TSLA) has entered a significant agreement to supply its Megapack batteries to

Intersect Power in a multi-billion dollar deal that will extend through 2030. Under this contract, Tesla will deliver 15.3 GWh of Megapacks over the next 6-7 years. These batteries will support large-scale solar and battery energy storage systems (BESS) in ...

Intersect Power Forms Strategic Partnership with Google and TPG ...

Intersect Power is expanding on its base portfolio of 2.2 GW of operating solar PV and 2.4 GWh of battery storage in operation or construction to include growth in grid-tied ...

Intersect Power closes financing for 1GWh of battery projects ...

Founded in 2016, Intersect Power has a base portfolio of 2.2GW of operating solar PV and 2.4GWh of storage in operation or construction across Texas and California.. The company's business plan includes growth in grid-tied renewables, as well as large-scale clean energy assets, including battery storage, data centres and green hydrogen.

TESLA PROVIDES INTERSECT POWER WITH 15.3 GWh ...

Tesla and Intersect Power announced a contract for 15.3 GWh of Megapacks, Tesla's battery energy storage system, for Intersect Power's solar + storage project portfolio through 2030.

This agreement, when combined with ...

Intersect Power to build \$837M worth of grid batteries in Texas

Intersect Power is making a significant investment in clean energy, securing \$837 million in financing for three large battery projects in Texas, totaling nearly 1 gigawatt-hour of storage capacity. The company is rapidly expanding its battery storage capabilities, helping to provide more flexibility to Texas's booming renewable energy market

Google, Intersect Power to develop co-located energy parks with ...

Intersect Power owns 2.2 GW of operating solar and 2.4 GWh of battery storage in operation or construction, according to the Houston-based renewable energy ...

Pairing Data Centers with Renewables and Batteries: Google & Intersect ...

Intersect Power is calculating that co-located renewables, which can be solar photovoltaic

panels paired with large-scale battery storage, can help bridge the gap while avoiding expensive transmission new builds. "This partnership is an evolution of the way hyperscalers and power providers have previously worked together. We can and are

Intersect Power lands US\$750m funding to take renewables ...

On top of increasing its solar and battery storage portfolio, Intersect Power aims to add 1GW of green hydrogen. Image: Unsplash. Utility-scale renewables developer Intersect Power has secured US

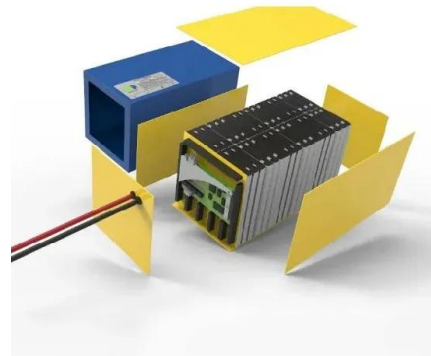

Intersect Power Secures \$837 Million in Project Financing to Build ...

Intersect Power, LLC, ("Intersect Power" or "Intersect"), announced today the closing of two separate transactions representing an aggregate of \$837 million of financing commitments for the construction and operation of three standalone Battery Energy Storage Systems (BESS) in Texas.

Tesla Provides Intersect Power With 15.3 GWh of ...

LATHROP, Calif., July 18, 2024--Tesla and Intersect Power today announced a contract for 15.3 GWh of Megapacks, Tesla's battery energy storage system, for Intersect Power's solar + storage

Intersect Power closes \$837 million in financing for ...

Intersect has a base portfolio of 2.2 GW of operating solar PV and 2.4 GWh of storage in operation or construction. The company states that its business plan includes growth in grid-tied renewables, as well as large-scale ...

Intersect Power brings online California solar-plus-storage plant ...

Intersect Power's Oberon project combines 679MWp of solar PV with a 250MW/1,000MWh BESS. Image: Intersect Power. US renewables company Intersect Power has started commercial operations at its Oberon solar and storage project in the US state of California, which has a power capacity of 679MWp and a co-located 250MW/1GWh battery storage facility.

INTERSECT POWER REACHES COMMERCIAL OPERATION OF 679 ...

Intersect Power today announced the commercial operation of its Oberon Solar +

Storage project, located in Riverside County, California. The Oberon project generates 679 MWp/500 MWac of reliable solar energy, enough to power over 207,000 homes a year, and features 250 MW/1 GWh of co-located storage.

Intersect Power secures \$837M for trio of Texas energy storage ...

Intersect's portfolio features 2.2 gigawatts of solar projects that are already operating, and 2.4 gigawatt hours of storage being operated or built. The company was founded in 2016. Intersect recently signed a deal with Tesla Energy for 15.2 gigawatt hours of Megapack battery energy storage systems. The contract, which will deliver systems

Tesla lands massive Megapack contract with 15.3 GWh ...

Tesla has landed a massive contract with Intersect Power for an unbelievably large battery energy storage system (BESS) project using 15.3 GWh of Megapack for its needs.

Tesla Provides Intersect Power With 15.3 GWh of

Tesla and Intersect Power yesterday announced a contract for 15.3 GWh of Megapacks, Tesla's battery energy storage system, for Intersect Power's solar + storage ...

Tesla Lands Major Megapack Contract with Intersect Power

Tesla and Intersect Power have announced a contract for 15.3 GWh of Tesla's Megapack battery energy storage systems for Intersect Power's solar + storage projects ...

Interstate Battery Jump Pack

Interstate Battery Jump Pack Models and Specifications. The Interstate Batteries Charge & Go line is top-notch for portable power. These jump starter packs are small but pack a big punch. They give your car the boost it needs, anytime. The PWR7020 Jump Starter + Charger is a highlight in the Charge & Go series. It can jump-start engines up to 8.0L with its ...

Intersect Power: The Future of Clean Energy

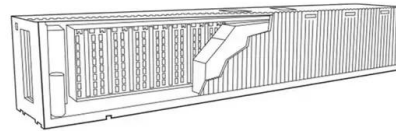

Intersect Power is a clean energy company bringing innovative, scalable, and American-made, low-carbon solutions to its customers in global energy markets. We develop, own, and operate some of the world's largest grid-tied clean energy resources, as well as co-located facilities for large industrial loads, including data

centers, e-fuels, and

Intersect Power Secures \$837M In Project Financing To Build 1 ...

Houston, TX (BUSINESS WIRE) - Intersect Power, LLC, ("Intersect Power" or "Intersect"), announced today the closing of two separate transactions representing an aggregate of \$837 million of financing commitments for the construction and operation of three standalone Battery Energy Storage Systems (BESS) in Texas.

Tesla Signs Major Energy Storage Contract with Intersect Power

With nearly 10 GWh of large-scale energy storage expected to be deployed by the end of 2027, Intersect Power becomes now one of the largest buyers and operators of Megapacks globally. Tesla has previously supplied Megapacks for Intersect Power's Base Portfolio of solar + storage facilities totaling 2.4 GWh in operation or under construction.

Intersect and Google to work on renewable energy infrastructure

Intersect Power has announced a strategic partnership with Google and TPG Rise Climate aimed at delivering renewable energy and storage solutions for new data centres.. By co-locating data centres with clean electricity and battery storage, the initiative aims to achieve high renewable energy usage while minimising transmission needs over long distances.

Intersect Power Taps Tesla for Energy Storage Systems

The rest will be used for solar and energy storage projects scheduled to come online in 2028-2030. "This partnership is the foundation of one of the largest and fastest growing storage portfolios in the country here at ...

Company plans to build \$800 million worth of battery

As Canary Media reported, the battery installations will store sun-powered energy captured by Intersect's 640-megawatt Lumina solar park and its 320 MW Radian project in Texas. Per Intersect Power

Forest City--Rockford, Illinois--Welcomes Commissioning of \$6.5M Battery ...

The pilot project in Rockford combines new battery storage with existing customer-owned solar at the Prairie Street Brewing Co. Funded partially through the U.S. Department of Energy's Enabling Extreme Real-Time Grid Integration of

Solar Energy (ENERGISE) program, it will enable distribution utility ComEd to research the impacts of ...

Intersect Power, Google, TPG partner on up to \$20B renewable ...

2 ???· Intersect Power will develop "powered land" that allows Google-anchored data centers to run most of the time on carbon-free electricity produced nearby, its founder and CEO said.

[intersect power Archives](#)

US solar PV and energy storage project developer Intersect Power has closed two financing deals worth US\$837 million for three battery energy storage system (BESS) projects. Maximising the Usable Energy of Home Battery Storage in Harsh Climates: Anker SOLIX's Modular Design and Innovative Optimiser Technology. December 11 - December 11, ...
