

European Solar Energy Storage

Zambia aluminum energy storage box spot

Overview

Where does Zambia import its goods?

The main source countries for Zambia's imports are South Africa, China, United Arab Emirates (UAE), India and DRC. As a member of the multilateral trade system, Zambia is signatory to several regional and global trade arrangements.

Does Zambia have a good solar system?

Zambia benefits from excellent solar resources, with a specific production output between 1,600 and 1,800 kWh/kWp per year. The regions with the best resources are the south-west part of the country as well as the region around Lake Bangweulu, east of Mansa.

Is Zambia a copper producer?

Zambia is the second largest producer of copper in Africa and its economy is heavily dependent on copper mining (at least 70% of total exports). Efforts to diversify economic activity or invest revenues from mining to other sectors of the economy have been limited.

Does Zambia need hydropower?

In recent years, Zambia has been able to improve its electricity supply but remains largely dependent on hydropower. This dependency represents a risk to the security of supply, as evidenced by the return of scheduled load shedding at the end of 2022 until February 2023, due to low water levels on the Zambezi River.
